MAYOR'S MATINEE

LARGE AND EXPECTANT AUDIENCE PRESENT

Local Merchant, Charged With Selling Whiskey, Is Discharged.

The mayor had a very large and expectant audience at his matinee yesterday afternoon. There was very little done however.

Two gentlemen of color were up for doing business without a license as a curtain raiser. One got discharged and the other got fined ten dollars.

The star performance or main act was then on. A local merchant was charged with selling that indefinable article called whiskey. An old darkey, R. W. Howard, was caught near an open door about ten days ago with a bottle of "Mayflower" in his pocket. Chief Domingus frightened Howard so much when he laid hands on him that the negro stated that he had just bought the pint at the next store, paying six bits for it. This bit of information caused a case to be made against the merchant. On the stand Howard stated that under the excitement of the moment he made his former statement and gave other testimony showing that he had really ordered the whiskey from Pensacola. Other evidence bore out the last statement, so the merchant was discharged.

Howard's getting excited and losing his presence of mind when Chief Domingus found the "pod of joy" in his pocket proved rather expensive. Mayor Baker fined the darkey twenty five dollars for maliciously causing the arrest of the merchant.

We learn that the revival now being conducted at Opp by Rev. W. P. Hurt is daily increasing in interest and power. The church is taxed to seat the congregations and a large number of conversions and accessions to the church are daily reported. Dr. Hurt will remain at Opp through Sunday and the pastor there, Rev. B. F. Marshall, will fill his pulpit here. Mr. Marshall is an excellent preacher and doubtless will be greeted by large congregations.

If wanting anything high grade and up-to-date in the Rubber Stamp line, "The Best Only," drop me a postal to call. All of the banks here are using Stamps from me and like them. Ark Travick, Agt. So. Exp. Co. about them. Yours respectfully, Chas. A. Kirke, Confederate Veteran. Dothan, Ala. P. O. 126

MALONE GROCERY CO. SUFFERS LOSS BY FIRE

ENTIRE STOCK, ESTIMATED AT A VALUE OF \$40,000.00 IS PRACTICALLY A TOTAL LOSS

Firm Only Carried About Twenty One Thousand Dollars Insurance Building, Although Badly Damaged On the Interior, Was Saved.

This morning about four thirty o'clock the Malone Grocery Co. suffered a heavy loss by fire. The entire stock, estimated at a value of about forty thousand dollars, was practically a total loss. The building, though badly damaged on the interior, was saved. The firm only carried about twenty one thousand dollars insurance.

How the fire originated is not known. Police officer I. L. Reeves was on the corner of Main and Foster streets when he discovered smoke rising above the building. Realizing at once that the place was on fire he dashed to the station and gave the alarm. Just as the wagon was ready to leave the station, another alarm came over the phone.

When the department reached the building, smoke was pouring from the windows and through the transoms. Breaking through the front door they quickly had several streams playing on the flames. But the light was a mean one. The building was completely choked with smoke, fumes from about half a car load of matches which the flames had reached, added to the difficulty of the firemen staying in the house. But the boys stuck and fought their way as they went. Fire seemed to be all through the large stacks of bundles, cases and other goods. The fire reached the ceiling and this was soon almost a sheet of flame. A small hole was burned through in one place but ladders and wagons stored upstairs were only slightly damaged from the heat and more the fire was confined to the first floor. The store of goods in the cellar were practically ruined by water.

When the fire was finally put out the large stock was searched, cleared, packed and a big Sunday is quite an achievement and clearly shows to them

Any child under ten years of age, will be admitted free to the Electric theatre Monday evening July 29, 1909, on presenting this coupon.

HEADLAND EXTENSION

OF ATLANTA AND ST. ANDREWS BAY ROAD

Proposed Extension To Take In Kinsey.—Both Towns Restraining Themselves.

The citizens of Headland are after the Atlanta and St. Andrews Bay Rail Road. In response to an invitation from them, General Manager W. R. Henuprie and Assistant Surgeon W. H. Williams went to Headland yesterday to have a conference on the subject.

The people of Headland are very anxious for that road to be extended to that place and received encouragement from the officials of the road. They will hold a mass meeting right away and make the road a proposition.

Headland can get this road if it is willing to dig down into its pockets and go after it. The original plans of the road contemplated going to Opelika and as going to Headland will only be carrying out part of their already made plans, all the Headland people have got to do to get it is to go after it.

The proposed extension will take in Kinsey and the people of this place are also bestirring themselves.

In yesterday's issue we expressed our views on the power question. We would like to hear from others on the subject, our columns are open to short letters from the citizens of the town. If you have an opinion or a suggestion, let us hear from you. A little discussion of this matter by the public may do good.

REPORT ON OTHER COUNTIES

It is told at Andalusia that the Pike County Commissioners wanted to extend one of their good roads into Coffee County for a distance of four miles and pay all of the costs. Why? Because it would draw much trade to Pike County. That's a great reason on good roads—Andalusia Star.

Pike County has been the cause of other counties prosecuting their good roads work. You will recall that Bullock has just begun his road work as provided by the \$100,000 bond issue. There was a fight against the issue and some of the strongest argument brought in by the road advocates was that Pike County had run her good roads right up to our borders, and that wagon after wagon (many loaded with cotton) that should come to Union Springs was going to Troy, to sell and to buy. I was true, too, but now we put a stop to that and keep all our business at home, and it will be done by "good roads."

The above clipping from the Union Springs Herald is the best argument for good roads we have ever seen. It is a whole skin and as true as gospel. It is no hearsay, it is not theory, it is **SOLID FACTS**.

When the commissioners of Pike county ask permission of the Coffee county commissioners to extend the Pike county good road four miles into Coffee county, what does it mean? When the Pike county commissioners build their good roads right up to the lines of Bullock and take all the trade from that section to Troy, thus forcing Bullock county to spend \$100,000 on their good road in order to keep citizens of their county from going to Pike to do their trading, it is not argument but proof, true and strong, beyond question of the necessity, not need of good roads.

Do our commissioners want any further demonstration of this fact? Can they ask for anything more?

It is held by some that the cost of good roads will make our taxes too high. Let's investigate a little.

Before the rail roads came to this country, our lands were worth fifty cents to one dollar an acre. They are now worth fifty to one hundred dollars per acre and hard to get at that price. Our roads are very bad. Suppose we had good roads, what would our lands be worth? We can reasonably expect a 25 per cent increase in value. With this increase in value we will not mind the additional tax, it will be a paying investment for the landholder and he can well afford to make it. It is simply a straight business proposition that will pay handsomely and at the same time add much to the comfort and pleasure of our citizens.

And the cities will bear a great portion of the burden than the

country. Are not city properties higher than farm lands? Would he additional revenue come more from there than from the country? But these values will likewise increase. The town people are anxious to pay their part, although the citizens of the farming district will get the greatest benefit.

Let's have good roads in Housatonic. Let's all pull together for them. Let us call upon our commissioners for them; they will give them to us if the majority of the people ask for them; they will have to give them to us. So let everybody pull together until they are built.

Columbus, Miss. is a good sized town. That it is not twice its present size and importance is the result of its officials and citizens' failure or slowness to act on important questions at the proper time.

Way back before the war when the M and O Road was being built the promoters of this road went to the officials and citizens of Columbus with a proposition to build the road by that place. They wanted certain concessions. The town took a cut on its importance and quietly went to sleep. Columbus was too important a place for the road to go any other place.

Yet the road was built and it did not go by Columbus. One morning the place woke up to find that trains were stopping by on their way from Mobile to St. Louis, eighteen miles or more west of them. Then a howl went up and he howl continued for several years. Finally the citizens went down into their pockets for about a hundred thousand dollars to build a side track or spur from the town to the road that could not get along without them.

And it was years before the city and any other road just this spur but they built themselves at great expense. And they had to give what they built to the M and O Road to get them to operate runs over it. Thus for a long time the city was held back in growth and development. If that man had gone there at first here are at least two towns that are now taking trade from Columbus which never would have been built. There is no telling how much the city lost by too much delay.

Can we not draw a lesson from this? Will not too much delay in getting cheap power into Dothan be a grave mistake? Is there not a chance for some other town to get in ahead of us and thus cause us to lose some important industry that we could have secured had we the power to offer as an inducement?

Let us not make the mistake of overestimating our importance. Can we not get together on this proposition as we have on others and land this cheap power for our town? Why not get it before it goes elsewhere?

Fourth Party in honor of Miss Ruby Kirkpatrick.

Friday evening at nine o'clock Messrs. Furmer, Hammond Dickenson, Steele and Harris, gave a beautiful porch party at the home of Mr. and Mrs. B. G. Farmer in honor of Miss Ruby Kirkpatrick of Montgomery, the charming visitor of Miss Nell Bowdoin.

The form of amusement was progressive conversation which gave the jolly crowd not only an opportunity to meet and converse with each one present, but furnished the subject for conversation, a wise provision, for otherwise the allotted five minutes would probably have been wasted on some uninteresting subject.

During the evening several beautiful vocal selections were enjoyed and later delightful refreshments were served. There were about fifty young people present among them several charming young ladies who are visiting in Dothan.

Those who assisted in serving refreshments were, Miss Evelyn Farmer, Miss Mamie Pardoloth, Miss Lillian Parish and Miss Janie Farmer.

CHANGES IN THE CODE.

A Special to the Birmingham News from Montgomery says:

Representative Gaston Gunter, chairman of the municipal code committee of the legislature, is at work preparing amendments to the code bill as passed at the last

session of the legislature and makes announcement that he will be glad to receive suggestions from other towns and cities of Alabama relative to changes desired in order that all of the changes if thought wise ones may be put in the general amendment bill. The

action of the committee is at request of many cities that certain technical portions of the bill be amended.
